&Partners Cash Review Committee meets periodically to review the interest rates paid to clients in the BDSP to determine the interest rate tiers and, whether and when the rates will change. Factors considered include the rates paid by Program Banks to obtain deposits from the Sweep Program, expected changes in interest rates, interest rates paid by market competitors, and program expenses.

Balances will earn the same rate of interest regardless of the Program Bank with which funds are deposited. Interest rate is based on each account's Program Deposits in accordance with the above interest rate tiers. The rate of interest is evaluated daily.
